### **Βιογραφικό:**

Dr. Antonis Zampelas is Professor in Human Nutrition, at the Department of Food Science and Human Nutrition, Agricultural University of Athens, Athens, Greece, and Honorary Professor, at the Division of Medicine, Faculty of Medical Sciences, University College London, UK. Dr. Zampelas was also Professor in Clinical Nutrition, Department of Nutrition and Health, College of Food and Agriculture, UAE University (2014-2016), and Visiting Professor in Human Nutrition at the same University. He served as President of Hellenic Food Authority (ΕΦΕΤ), Ministry of Agriculture and Food, Greece (2008-2010). Before joining the Agricultural University of Athens, Dr. Zampelas was Assistant Professor in the Department of Nutrition and Dietetics, Harokopio University (Athens, Greece). He obtained his B.Sc. at the Agricultural University of Athens, Greece, and his MSc in Food Science at University of Reading, UK. After completing his PhD in Clinical Nutrition, Centre of Nutrition and Food Safety, School of Biological Sciences, University of Surrey, Guildford, Surrey, UK, he worked as a Research Fellow in the same University and then as a Senior Scientific Officer, Food and Veterinary Science Division, Chief Scientist Group, in the Ministry of Agriculture Fisheries and Food (London, UK). Dr. Zampelas has taught a large number of undergraduate and graduate courses and organized specialized modules relating to nutrition. He has supervised 15 PhD students, and several MSc students at the Department of Nutrition and Dietetics, Harokopio University, and at the Department of Food Science and Human Nutrition, Agricultural University of Athens. Due to his expertise he has served as Member in a large number of Committees and Scientific Societies.
