The German Embassy invites you to a live multimedia presentation about the revolutionary events of the autumn of 1989:

### **Germany in Europe - the German Unity**

*No single historical event has changed the recent history of Europe and the world as fundamentally as the fall of the Berlin Wall 30 years ago. How did the division occur, how could it be overcome and what conclusions do we draw today? With an exciting live multimedia presentation, the German political scientist and expert speaker Ingo Espenschied will bring the revolutionary events of the autumn 1989 to life.*
