University of
Technology

Cyprus International Institute
for Environmental and
Public Health

The Cyprus International Institute of Environmental and Public Health of Cyprus University of Technology invites you to the lecture on:

"Publishing Scientific Research"

Speaker: **Natalie Pafitis, Senior Editor of BMC Series**

Abstract: Mrs. Natalie Pafitis will present on the fundamentals of scientific publishing, discussing open access publishing, publishing ethics, peer review and what is required for preparing your research for publication in a scientific journal.

Short bio: Natalie Pafitis joined BMC after having completed an MSc in Environmental Health at the Cyprus International Institute, in Association with the Harvard School of Public Health. Prior to this, she gained her BSc in Environmental Science at the University of Indianapolis, USA. Natalie is a Senior Editor for the BMC-series and has been Editor of BMC Public Health since 2007. She has a keen interest in the use of research evidence to underpin public health policy and is an Editor of the BMC Series blog where policy implications of BMC Public Health articles are also discussed.
