ABOUT THE SCHOOL

The school is part of the project's dissemination and communication strategy which has organized and structured to demonstrate different topics within the project's Joint Research Activities (JRAs). The school aims to share knowledge and project outcomes to facilitate discussions and exchange ideas between researchers, industrial and business stakeholders, governmental and decision-making bodies and the general public.

The school lasts five days and is divided into two sections: The first section lasts three days and is addressed to faculty members, project stakeholders and the general public. During the first section, the subjects and applications from European funded projects will be presented, and the case studies that came up through undergraduate theses. The second section lasts two days and is entirely dedicated to research topics, and is addressed to faculty members, PhD/MSc Students and researchers.

ABOUT DESTINI

DESTINI: SMART DATA PROCESSING AND SYSTEMS OF DEEP INSIGHT

TWINNING PROJECT - HORIZON2020

Smart Data ProcEssing and SysTems of Deep INsight (DESTINI) is a H2020 Twinning Project that proposes a series of coordination and support actions for promoting research in the area of Smart Data. Cyprus University of Technology (CUT) joins forces with two internationally recognized scientific groups from the Netherlands (Tilburg University and Jheronimus Academy of Data Science) and Italy (Sapienza Università di Roma), aiming to strengthen its research and scientific profile in the relevant area. Specifically, DESTINI's activities revolve around exchanging scientific knowledge and transferring the best research practices amongst its partners in the field of Smart Data Processing and Systems of Deep Insight.
